Dear Jason,

This letter is being written to commend Visual Management Systems on your Remote Management Digital CCTV System that Freehold Savings & Loan Association had purchased in May 2005. Our branch office on Route 9 had recently been robbed and without your system we probably would not have obtained a photograph of the suspect, since our old system utilized VCR tapes and camera switches. Your system was easy to use and a clear picture of the robber was obtained. A 25 second video was burned to a CD, which after being viewed by the FBI, noted exactly where the robber had touched, making fingerprint dusting a snap. They were impressed by the system.

We are delighted to have this system working for us and would be happy to recommend your company to others. If we can be of any assistance to you, please do not hesitate to call.

Sincerely,

Thomas Zarycki
Vice President
